CHAPTER I INTRODUCTION

A. BACKGROUND

In today's competitive environment, it is important that students have a global perspective. In this regard, it is necessary to motivate the students to take part in different kinds of debate competitions. A debate tournament is a competition in which students demonstrate their ability to present and defend scholarly arguments, both pro and con, on a given topic using good and correct English in front of judges and other participants. Debate competitions train students to think critically, logically, analytically, and systematically, and improve their communication skills in communicating their opinions.

This then motivated educational institutions in Indonesia, namely universities, especially the Universitas Nasional held the English Debate Competition (EDC) with the theme "**Implementation of Technology in Blue Economic Policy to Optimize Sustainable Maritime Innovation in Indonesia**". In connection with the theme carried out in the English Debate Competition (EDC) in 2023, this brings together 32 debate teams to raise awareness about Maritime issues in Indonesia which are being paid attention to. This activity is carried out in a hybrid (online and onsite) between students at the National level in order to celebrate the 74th Anniversary of the Universitas Nasional and internalize the spirit of positive competition that requires communication and argumentation skills.

The English Debate Competition (EDC) is an English language debate competition where participants debate arguments and thoughts related to contemporary issues from various aspects, namely social, political, cultural, technological, economic, energy, legal, health and so on. Therefore, the English Debate Competition (EDC) aims to improve participants' ability to speak in public, develop analytical and critical thinking skills, and strengthen their ability to argue using effective and persuasive language. The English Debate Competition (EDC) in UNAS FEST 2023 is expected to be of interest to many participants, both from the students of the Universitas Nasional and from outside the Universitas Nasional. In addition, the English Debate Competition (EDC) can be a platform for the exploration of different points of view and perspectives on important issues in society.

D. COMPETITION MECHANISM

English Debate Competition uses the British Parliamentary System. The rules of this system are adapted from the international level competition, World University Debating Championship (WUDC). Here's the flow of the British Parliamentary System debate:

GUIDE Book

8

1) DEBATER

One team consists of two debaters. In one debate round, there are four teams that will debate. The four teams will get a (pro) government or (cons) opposition position. The Pro positions consist of the Opening Government Team and the Closing Government Team, while the Contra positions consist of the Opening Opposition Team and the Closing Opposition Team.

2) MOTION

The debate motion in this system is impromptu, i.e. the motion is given before the debate begins. Each team has 15 minutes to prepare a case (Case-Building).

3) POINT OF INFORMATION

Point of Information (POI) can be in the form of questions or statements given to an opponent who is stating their argument. When POI is given, the interrupted party may accept or reject the given POI. POI can be asked several times as long as it doesn't disturb the concentration of the debater who is talking, if it is intentional it will be deducted by 10 points. POI can be asked after the first minute until before the sixth minute of the debate, if violated then 10 points are deducted.

E. SCORING PARAMETER

There are two scoring parameters in EDC UNAS FEST 2023, consisting of the following:

A). SCORING PARAMETER

The Scoring Parameter is the judgment obtained by each individual debate participant based on the argumentation they have given.

GUIDE Book

9

SCORE	DESCRIPTION
90 - 100	Excellent
80 - 90	Arguments have a strong foundation and ideas are original and revolutionary.
76 - 79	Comprehensive structure, revolutionary idea
75	Argumentation is a notch above average
72	Average (Structurally complete, task fulfilled, the response is sufficient, accepts or gives interruptions, the argument is clear despite shortcomings)
70	The speech substance and structure are almost complete
63 - 69	The argument substance is weighty but the speech is not understandable.
51 - 62	The debater speaks but the speech is weightless
50	The debater doesn't have any words at all
